|-----------------------|---|
| <b>Use Case ID:</b>   | UC-02   |
| <b>Use Case Name:</b> | Using the movie index to sort and select a movie.   |
| <b>Description:</b>   | User can navigate the movie index to locate and open an entry for a particular movie in the database. |

|                          |  |  |                 |
|--------------------------|--|--|-----------------|
| <b>Users:</b>            | Movie Fans   |  |                 |
| <b>Pre-conditions:</b>   | User is at the website main page for GoodReels (found at <a href="http://goodreels.github.io/">http://goodreels.github.io/</a> ) |  |                 |
| <b>Post-conditions:</b>  | User has successfully sorted the movie database and opened selected a movie from the index.                                      |  |                 |
| <b>Frequency of Use:</b> | However many times a user wishes to access information about movies stored in the website.                                       |  |                 |
| <b>Flow of Events:</b>   | <b>Actor Action</b>  | <b>System Response</b>   | <b>Comments</b> |
|                          | 1. Click the link labeled "Movie Index."   | Website will load the <b>Movie Index</b> page, which contains a table consisting of film titles, along with their directors and release years. |                 |
|                          | 2. Click the "Movie Title" header on the table.  | Film entries appear in alphabetical order. If clicked again, they would appear in reverse.   |                 |
|                          | 3. Click the "Director" header on the table.   | Film entries appear sorted in alphabetical order by director's first name.   |                 |
|                          | 4. Click the "Release Date" header on the table.   | Film entries appear sorted in chronological order of their release.  |                 |
|                          | 5. Click on a film of your choice in the "Movie Title" column.   | The article for that film opens in a new window.   |                 |
|                          |  |  |                 |
